

# The Twice-a-Week Herald

VOL. XXI.

AMARILLO, TEXAS, TUESDAY, NOVEMBER 13, 1906

NO. 91

## ANDREWS IS DEFEATED

According to Democratic Chairman, Larraola is Elected by Small Majority.

## TO CONTEST ELECTION

Suits Have Already Been Instituted in Some Precincts to Have Boxes Thrown Out Latest Republican Estimate.

Las Vegas, N. M., Nov. 12.—Late returns received from Democratic headquarters, lower the majority of Larraola, Democrat as delegate to congress, but chairman Jones still claims the election by 300. Jones has instituted suits in Colfax and Terrell counties to have several precincts thrown out and will contest Rio Arriba and Taos counties unless Larraola has a clear majority. The latest Republican estimate is 221 for Andrews based on the claim of 200 majority in Taos, which is disputed.

## American Federation of Labor.

Minneapolis, Minn., Nov. 12.—The twenty-sixth annual convention of the American Federation of Labor opened in Normania hall this morning with a full representation of delegates from all over the country. There are a number of important matters to be considered and the sessions will probably continue for at least two weeks. The result of the advent of the federation into politics will be thoroughly considered and the discussion will probably take up much of the time of the convention. Many disputes between affiliated unions will also come before the convention for settlement.

The report submitted to the delegates by Secretary Frank Morrison shows that in the last year chapters were issued to six international unions, four state branches, forty-nine central bodies and 29 local trades unions an increase of twenty chapters over 1905. The financial report shows that the receipts for the year were \$1,252,929 and the balance on hand at the close of the fiscal year of 1905 was \$114,265, making a total of \$397,156. The expenditures were \$206,732, leaving a balance now on hand of \$190,423. The report shows that the twenty-five international unions contributed \$146,225 to the relief of the San Francisco sufferers.

## President off Cuba.

Charleston, S. C., Nov. 12.—Wireless telegrams received here from the battleship Louisiana with the President and party aboard show that at seven this morning the ship with her company was at a point about 300 miles southeast of Jupiter Inlet, Florida. The squadron was headed for Crooked Island passage between Crooked Island and Watling in San Salvador Island where Columbus first landed. The boat was making about fifteen knots, Captain Cowen expected to reach Cape May at the eastern extremity of the island of Cuba by nightfall. The President and party are all well.

## New Ice Factory.

Brownwood, Texas, Nov. 12.—The new ice factory down near the Frisco depot is almost completed. Mr. George L. Law, who is superintending the work of installing the machinery says the boilers are in place and that most of the pipes have been connected. While the work will likely all be completed within a few days the factory will not start up business until in the spring.

## Sells 81 Sections.

Colorado, Texas, Nov. 12.—Word came from Judge E. J. Hammer at Mineral Wells to the effect that he had just closed a deal selling the 81 sections of unsold land out of the Rush and Tiller pasture or ranch. The parties who bought this property will immediately cut it up and place

it on the market for sale to actual settlers. When it comes to landing the big deal the Judge always gets there, for his deals amount to nearly half a million dollars, and is the largest land sale that has been made by any body in this section for many years. This closes up the sale of his big ranch, and by the way, is about the last big ranch near Colorado to be sold. The F. E. McKenzie place has been surveyed into quarter sections and placed on the market, and in less than twelve months there will be a farmer on every quarter section in Colorado county.

## Half Bale to the Acre.

Lampasas, Texas, Nov. 12.—J. F. Vann of the Naruna section reports that he made more than a half bale of cotton to the acre on his farm, having planted the crop the last of May, after the great hail which visited that section. One of the best farmers of the Colorado river used to say that the most successful cotton crop he ever raised was planted on stubble land on June 20. Sometimes the late seasons are just right to make late planted cotton produce well, then again they are not.

## No Present Need.

Washington, D. C., Nov. 12.—Secretary Shaw today said he saw no present need of going to the assistance of the money market and that as before stated by him, unless the conditions materially changed he would adhere to his intention not to refund or buy bonds for the increase of deposits.

## ARIZONA TERRITORIAL FAIR OPENED AT PHOENIX.

Phoenix, Ariz., Nov. 12.—The second annual Arizona territorial fair opened this morning with a livestock parade and band concert. The livestock exhibit includes some of the finest cattle and draft horses ever shown in the Southwest and is the most notable feature of the fair. The educational department, in charge of Professor Matthews of Tempe, and the mineral department, superintended by Epos Randolph of Tucson, are also very complete and will doubtless attract much attention.

The racing program will begin this afternoon, the entries including some of the fastest horses in the West. Audubon Boy in a race to lower the world's record will be a feature. A cowboy relay race to the championship of Arizona will begin tomorrow and the prizes offered will be contested for by cattle men from all over the territory.

Next Thursday will be miners' day and the chief event will be a miners' drilling contest for the championship of Arizona. Handsome cups will be presented to the winners.

Friday has been set aside as Indian day and all redskins will be admitted free. Numerous prizes are offered in various races and contests, open only to Indians, including a 100 yard foot race for squaws.

## The Last Conference.

Washington, D. C., Nov. 12.—Attorney General Moody is expected to return to Washington some time today and will hold a conference with Messrs. Morrison, Kellogg and Purdy on the Standard Oil matter. This probably will be the last conference before the announcement is made as to whether suit will be under the Sherman anti-trust law against the Standard. The announcement will likely be made about the middle of the week.

## Increase of Wages.

New York, Nov. 12.—Demands of engineers employed by the Delaware Lackawanna and Western railroad were adjusted today at a conference between President Truesdale and representatives of the engineers. They were granted a ten hour day and an increase of wages aggregating for 960 engineers \$30,000 or \$35,000 annually.

## Open Moscow University.

Moscow, Nov. 12.—The University of Moscow, which was closed last month by order of the rector on account of the rule against holding political meetings in the university buildings, was reopened today. Warning to the students has been given that if the rules are again violated the university will be closed permanently.

## FORTY DEAD IN WRECK

Head-On Collision on B. & O. Near Woodville, Illinois Claims Many Victims

## DISPATCHERS FAULT

Immigrant Train Was Running in Two Sections, but Conductor on One Did Not Know It—Hospital Notified.

Valparaiso, Ind., Nov. 12.—Fifty out of 167 immigrants who were on the Baltimore & Ohio train which collided head-on with a freight train this morning at Woodville, ten miles from here are missing, and it is believed their bodies were consumed by a fire which destroyed six coaches of the immigrant train.

The colliding trains were express No. 7 westbound, made up of express and passenger cars, and freight train No. 96 eastbound. The express train had 150 passengers nearly all immigrants.

The wreck occurred on the curve and the engineers had but little time to reverse the levers and jump. The accident is declared was the result of misdirection by the train dispatcher. He ordered the westbound held at Chicago Junction to allow the eastbound passenger to pass. The passenger was running in two sections but the conductor on the westbound was not notified of this. When the first section passed he pulled out and started for Chicago on the main track and the collision followed. The first reports indicate five known dead and number missing.

Later the railroad officials said only one was killed outright. They declare that they believe no one burned to death. It is known that a large number were injured and the officials have notified the Mercy hospital at Chicago to be prepared for the reception of forty injured persons.

## Forty Dead in Wreck.

Chicago, Nov. 12.—At 1 o'clock officials of the Baltimore & Ohio announced that they had received positive news from the wreck at Woodville and it was known that out of 155 passengers on the train forty were killed, thirty-five injured and sixty escaped.

## POWELL CLAYTON'S DAUGHTER MARRIES

Washington, D. C., Nov. 12.—Miss Katherine Clayton, daughter of former Ambassador Powell Clayton of Arkansas, will today become the bride of Arthur Grant-Duff, of the British diplomatic service. The ceremony will be performed at the Belgian embassy, the hosts of the occasion being the Belgian minister, Baron Moncheur and his wife, a sister of the prospective bride. Miss Clayton will be attended by Miss Grace Thompson, of St. Louis, as maid of honor, and will be given in marriage by General Clayton. After a brief reception the newly married couple will leave for Havana, where the groom will act as British minister to Cuba.

The romance which culminated in the engagement of Mr. Grant-Duff and Miss Clayton began in the City of Mexico several years ago. The groom is known as one of the brightest young diplomats in the British service.

## Regular Train Service.

Brady, Texas, Nov. 12.—That the people of Brady are interested in the matter of getting a regular train is evidenced by the fact that a mass meeting of the citizens of the town was held last week to select delegates to go before the commission at Austin. Prominent citizens of the town while in Brownwood this week said that it is a shame, with the travel on the line now had, that they cannot have a regular passenger

service and if anything can be done to get such service they are going to do it. Often times the train is held to load stock and do a lot of switching, which to the traveling public makes a visit to Brady obnoxious and in some instances keeps many from going at all.

## Southern Immigration Meeting.

Nashville, Tenn., Nov. 12.—The second Southern Immigration and Quarantine conference opened this morning in the hall of representatives at the capitol, with more than a thousand delegates in attendance. The chief object of the meeting is to consider methods of obtaining a desirable class of immigrants for the South with a view of suggesting remedial legislation. Negro labor is daily becoming more unsatisfactory in the southern states and the problem of securing white immigration, which the convention is attempting to solve, is in consequence of vital importance to the industrial progress of the entire South.

## Market Too High.

Washington, D. C., Nov. 12.—The treasury department today received offers for the sale of silver to the government at 72c. The offers were rejected and Secretary Shaw stated subsequently that no more silver would be bought at present high prices. The government has on hand enough silver to keep the mints in operation for some time and he regards the present prices as too high to warrant the government making any more purchases at those prices.

## SENATORS TO VISIT INDIAN TERRITORY.

Kansas City, Mo., Nov. 12.—The senate committee on Indian affairs, which will spend about three weeks in the Indian Territory investigating Indian affairs, arrived here today and are holding a conference in the Baltimore hotel. The committee will leave this evening for Vinita, I. T., where a three days' session will be held. Other Indian Territory cities to be visited are as follows:

Muskogee, Nov. 16 to 19; McAlester, Nov. 20 to 22; Ardmore, Nov. 23 to 26; Tulsa, Nov. 27 and 28 and Bartlesville, Nov. 29 and 30. Delegations of citizens from McAlester and Muskogee met the committee here and will accompany the senators to the territory. An effort will be made to have the time spent in those cities extended as the citizens believe that an adequate examination cannot be made in the three days allowed to each place.

At the conclusion of the trip the committee will leave for Washington where they will report the result of their investigations to congress.

The members of the committee on Indian affairs are Senators Clark of Wyoming, chairman; Brandegee of Connecticut; Lusk of Kansas; Clark of Montana and Teller of Colorado. Among the matters of importance which the committee will investigate are the removal of restrictions of the sale of surplus allotted lands, the disposal of coal and asphalt lands and the regulation of oil and gas lands.

## Took First Premiums.

Colorado, Texas, Nov. 12.—George B. Root returned from the Texas fair Thursday last where he exhibited his two French coach stallions, Electric and Duplex. He took first premium on Electric for being best stallion over three years old, exhibited at the fair this year. In view of the fact that these horses were shown against the finest in the state it is considered quite a feather in Mitchell county's cap and Mr. Root has been the recipient of many congratulations from his friends here and other parts of Texas.

## Admits Hoch's Election.

Topeka, Kan., Nov. 12.—W. H. Ryan of the Democratic state central committee disbanded headquarters today. "It seems now," he said, "that Governor Hoch has been re-elected by 1,500, although we have not received the complete official returns."

## Eleven Passengers Injured.

St. Louis, Nov. 12.—Two coaches and sleeping cars on the Missouri Pacific fast mail at Kansas City was thrown from the track by a broken rail near Eureka, Mo., today and eleven passengers were injured.

## FOR TARIFF COMMISSION

Senator Cullom of Illinois Will Introduce Joint Resolution in Next Congress.

## TAKE OUT OF POLITICS

Elimination of Question Altogether and Advises That the Subject be Treated on a Strictly Business Basis.

Chicago, Ill., Nov. 12.—A dispatch to the Tribune from Washington says:

Immediately after congress convenes next month Senator Cullom of Illinois, will introduce a joint resolution of the senate providing for the appointment of an expert tariff commission to consider and report on schedules which are to be revised. Such a commission should be absolutely nonpartisan and should treat the subject in accordance to the needs of the business and the interests of the country. In the judgment of Senator Cullom the time has come to eliminate the tariff from politics and make it what it should be, a practical business proposition.

## Wrecked by Dynamite.

Nashville, Tenn., Nov. 12.—The warehouses of the American Swift company at Eddyville, Princeton and Fredonia, Ky., have been wrecked by dynamite.

## Bloodhounds on Trail.

Eddyville, Ky., Nov. 12.—Eddyville warehouse was blown up today. Bloodhounds followed the trail of the wreckers for ten miles into Caldwell county. Several months ago the trust warehouses in the southern part of Kentucky was dynamited and the growers who sold tobacco in the trust received warnings from night riders.

## General Shafter's Condition.

Bakersfield, Nov. 12.—The doctors report of the condition of General Shafter at 3 o'clock this morning was that he passed a restless night. While his condition is low he cannot be said to be sinking.

## End Is Near.

Bakersfield, Nov. 12, 10:45 a. m.—Dr. Mitchell telephoned the following: "General Shafter is very much weaker and is now unconscious. End is near."

## Stanton Booming.

Stanton, Tex., Nov. 12.—Every week something of the good of Stanton turns up. First one enterprise then another, and so on—the result of which the town is continually growing and that very fast. But what will probably be the of the greatest service to Stanton is the fact that the Higginbotham, Harris Co. this week let the contract for fifty-five tenant houses to be built on their land north of here. Their land is as good as there is in the county and with the additional trade these farmers will bring to Stanton will be a great boon to the town.

## God on Beer Drinking.

New York, Nov. 12.—"God does not regard the drinking of a glass of beer as a sin," according to John D. Rockefeller, Jr., who imparted the latest information from the Almighty to the members of his Bible class. "It is the drinking to excess that is a sin in the sight of God. A man can violate God's laws as much by over eating as by over drinking."

## To Give Nordic Recital.

New York, Nov. 12.—A Nordic recital, the first in this city in seven years, will be given at Carnegie hall this evening. A brilliant program will be rendered.

## Pythian Convention.

Muskogee, I. T., Nov. 12.—The Knights of Pythias lodge of this district are holding a convention here today. Much important business will come before the meeting.

**LAMB WIRE FENCE**

Now on hand. By far the strongest and most durable fence made. The only high carbon steel fence.

Call and See It.

**Gives to the Needy.**

New York, Nov. 12.—Mrs. Russell Sage will give away the bulk of her fortune of about \$80,000,000 bequeathed her by her late husband, to individuals whom she considers worthy, who through no fault of their own, are so unfortunate as to need assistance and help to ask. It will not be given to endow churches, nor to those writing begging letters. Mrs. Sage said she would do all she can however for struggling churches and the institutions devoted to the care of needy and sick. "I shall keep only sufficient of the fortune left me by my husband to live quietly and comfortably," Mrs. Sage said today.

**Rise in Land.**

Eden, Texas, Nov. 12.—An old timer of Eden was heard to make the remark recently that the land around Eden a few years ago was offered for sale at \$2 per acre. The same land is now selling at an average of about \$15 per acre. Some would term \$15 land as high, but when from a half to a bale of cotton can be raised on land \$15 is a very small sum to pay.

**Bomb Thrown Killed.**

Moscow, Nov. 12.—A bomb was thrown at Mayor Reinbolt this morning. Reinbolt, who was not hurt, pulled a revolver and killed the bomb thrower.
